INDEX TO VOLUME 24

An * denotes the abstract of a paper before the Academy or an affiliated society.

PROCEEDINGS OF THE ACADEMY AND AFFILIATED SOCIETIES

Anthropological Society of Washington. Proceedings: 187.
Botanical Society of Washington. Proceedings: 145.
Geological Society of Washington. Proceedings: 188, 486.
Philosophical Society of Washington. Proceedings: 104, 323, 360, 563.
Washington Academy of Sciences. Proceedings: 144, 453.

AUTHOR INDEX

ADAMS, OSCAR S. Flatland: Not a romance but a necessary expedient. 201.

ALICATA, JOSEPH E. The development of the Trichostrongyle, *Nippostrongylus muris*, in rats following ingestion of larvae. 334.

ARCHER, W. A. *Botanical explorations in Choco Province, Colombia. 145.

—— The dental plant of the Citara Indians in Colombia. 402.

BALL, CARLETON R. Two new varieties of *Salix scouleriana* Barratt. 73.

BALL, E. D. The genus *Oliarus* and its allies in North America (Homoptera fulgoridae). 268.

BARTRAM, EDWIN B. Additional Costa Rican mosses, III. 467.

BARTSCH, PAUL. New Philippine land shells of the genus *Obba*. 318.

BASSLER, R. S. Notes on fossil and recent Bryozoa. 404.

BERRY, CHARLES T. Pleistocene remains found near Lake Tacarigua, Venezuela. 387.

BERRY, EDWARD W. A pine from the Potomac Eocene. 182.

—— Extension of range of *Attalea olssoni*. 447.

—— Pliocene in the Cuenca Basin of Ecuador. 184.

—— Three additions to the Pleistocene flora of Tennessee. 482.

—— A walnut from the Chesapeake Miocene. 227.

BLACKWELDER, ELIOT. Supplementary notes on Pleistocene glaciation in the Great Basin. 217.

BLAKE, S. F. New Asteraceae from Guatemala collected by A. F. Skutch. 432.

BOWLES, EDGAR. Early Tertiary species of gastropods from the Isthmus of Tehuantepec. 241.

BROMBACHER, W. G. *Altitude in airplane and balloon flight. 364.

BROWN, B. E. The ammoniation of waste sulfite liquor and its possible utilization as a fertilizer material. 1.

BROWN, ROLAND W. *Celliforma spirifer*, the fossil larval chambers of mining bees. 532.

—— *Genus *Tempskya* in western North America. 191.

—— *The pronunciation of geologic terms. 493.

—— The supposed fossil ear of maize from Cuzco, Peru. 293.

BUNYEA, H. The nitrite-thiosulphate combination as a remedy for cyanide poisoning in sheep. 528.

—— Remedies for cyanide poisoning in sheep and cattle. 369.

BURGESS, W. B. *Application of radio direction finding. 106.

CALLAGHAN, EUGENE. *Some aspects of the geology of the Cascade Range in Oregon. 190.

CARLGREN, Oskar. Some Actinaria from Bering Sea and arctic waters. 348.

CARROLL, H. B. *Present theories of photographic sensitivity. 107.

CHARLES, VERA K. *Microsporum* of cats causing ringworm in man. 222.

CHITWOOD, B. G. The histology of nemic esophagi III. The esophagus of *Oesophagostomum dentatum*. 557.

CHRISLER, V. L. *Dependence of sound absorption upon the area and distribution of the absorbent material. 323.

CLARK, AUSTIN H. A new sea-urchin from Florida. 52.
CLAWSON, A. B. Remedies for cyanide poisoning in sheep and cattle. 369.
—— The nitrite-thiosulphate combination as a remedy for cyanide poisoning in sheep. 528.
COBB, N. A. An annotation on the nematode genus *Pontonema*. 56.
COUCH, JAMES F. Remedies for cyanide poisoning in sheep and cattle. 369.
—— The nitrite-thiosulphate combination as a remedy for cyanide poisoning in sheep. 528.
DACHNOWSKI-STOKES, A. P. Saline peat profiles of Puerto Rico. 175.
DANE, C. H. *Fossil sink-holes in Cretaceous beds of Prowers County, Colorado. 194.
DARROW, G. M. *Short daily light periods the cause of the rest period and regional adaptation in strawberries. 146.
DEMING, W. E. *Curve fitting and tests for empirical formulas. 564.
DIAMOND, HARRY. *Recent developments in radio aids to air navigation. 105.
DICKINSON, H. C. *The mechanism of material prosperity. 360.
DIEHL, W. W. *The lack of chlorosis in some sterility diseases of grasses. 148.
DOW, RICHARD B. Pressure-volume-temperature relations for six oils. 516.
DRECHSLER, CHARLES. *Pedilospora dactylopaga* n. sp., a fungus capturing and consuming testaceous rhizopods. 395.
EAKIN, H. M. *An accidental large scale model of diastrophic action. 192.
ERLANSON, C. O. *A résumé of potato investigations in Mexico and South America. 147.
FENNER, CLARENCE N. Some magmatic problems. 113.
FRANCK, JAMES. *Remarks on catalysis. 453.
FRIEDMAN, HERBERT. Bird bones from Eskimo ruins on St. Lawrence Island, Bering Sea. 83.
—— Bird bones from old Eskimo ruins in Alaska. 230.
—— The hawks of the genus *Chondrohierax*. 310.
GARDNER, JULIA. Early Tertiary species of gastropods from the Isthmus of Tehuantepec. 241.
GAZIN, C. LEWIS. *A marsupial from the Florissant beds of Colorado. 487.
GIRTY, GEORGE H. New Carboniferous invertebrates IV. 249.
—— *Pleurotomaria pseudostrigillata* nom. nov. and *Chonetes acanthophorus* nom. nov. 541.
GLASSELL, STEVE A. Affinities of the Brachyuran fauna of the Gulf of California. 296.
GODDARD, E. N. *The relation of Tertiary intrusives to ore deposits of Jamestown, Colorado. 488.
GOLDMAN, E. A. A new pocket mouse from Sonora. 267.
GORANSON, ROY. A note on the elastic properties of rocks. 419.
GOSS, M. J. The ammoniation of waste sulfite liquor and its possible utilisation as a fertilizer material. 1.
GRIGGS, ROBERT F. The problem of arctic vegetation. 153.
HASTAD, L. R. *Atomic disintegration by high energy particles. 563.
HAMMAR, H. F. *Preliminary study of source beds in the Mesozoic rocks on the west side of Sacramento Valley. 491.
HANN, RAYMOND M. 5-chloroveratralhippuric acid and some of its derivatives. 464.
—— 3, 4-dimethoxy—5-chloro-benzylidene di-amides. 124.
—— p-Fluorophenacyl alcohol and some of its esters. 526.
—— The isomeric oximes of ethyl vanillin. 126.
—— The synthesis of 3, 4 dimethoxy—5-chloro benzoic acid. 329.
HANNA, G. DALLAS. Land shells from the Upper Eocene Sespe deposits, California. 539.
HEYL, P. R. *The composition of harmonic motions. 362.

HITCHCOCK, A. S. New species of *Aulacolepis* and other grasses. 290.
—— Two new grasses, one from Tennessee, one from Argentina. 480.
HOWE, MARSHALL, A. Hawaiian algae collected by Dr. Paul C. Galstoff. 32.
HOYT, W. G. *Forests and stream flow. 486.
HULBURT, E. O. *The polarization of light at sea. 325.
HUNT, CHAS. B. *Tertiary structural history of parts of northwestern New Mexico. 188.
JONAS, A. I. *Hyperstene granodiorite in Virginia; its change to unakite and its age. 489.
JONES, AUSTIN E. Earthquakes associated with the 1933 eruption of Mauna Loa, Hawaii. 413.
JORDAN, LOUIS. *The preparation of metal single crystals and their utilization in metallurgical studies. 104.
KEMPTON, ALINE F. *Microsporum* of cats causing ringworm in man. 222.
KILLIP, ELLSWORTH P. New plants mainly from western South America —IV. 42.
KINCER, J. B. *Long-time temperature trends: Are the old fashioned winters gone? 148.
KING, PHILIP B. *The Cretaceous of West Texas. 195.
KRULL, WENDELL H. *Neodiplostomum pricei* n. sp., a new trematode from a gull, *Laurus novaehollandiae*. 353.
—— New experimental hosts for *Brachylaemus virginiana* (Dickerson) Krull. 483.
LEGGETTE, R. M. *Varved clay in Ogden Valley, Utah. 493.
LEONARD, E. C. The American species of *Elytraria*. 443.
LINTON, EDWIN. A new genus of Trematodes belonging to the subfamily Allocreadiinae. 81.
LUCKER, JOHN T. The morphology and development of the preparasitic larvae of *Poteriostomum ratzii*. 302.
LUKENS, R. R. *Sound ranging as applied to hydrographic survey. 324.
MACNEIL, F. STEARNS. The pelecypod genus *Vulsella* in the Ocala limestone of Florida and its bearing on correlation. 428.
MAGNESS, J. R. *The functioning of fruit trees as influenced by moisture supply. 148.
MANSFIELD, WENDELL C. A new species of *Pecten* from the Oligocene near Duncan Church, Washington County, Florida. 331.
MARMER, H. A. *Tides that follow the sun. 362.
MARSHALL, WILLIAM B. Two new species of pearly fresh-water mussels. 78.
MARTIN, J. H. *Grohoma and other fake grains: their origin and exploitation. 147.
MATHES, F. E. *Wind-faceted pebbles from the glacial drift of Nantucket. 195.
MATLACK, M. B. The pigment of the India red pummelo (*Citrus grandis* Osbeck). 385.
MAXON, WILLIAM R. *Pleuroderris*, a new genus of Middle American ferns. 549.
MCBURNEY, J. W. *The indentation of asphalt tile. 364.
MCCLURE, F. A. The inflorescence in *Schizostachyum* Nees. 541.
MCKINNEY, H. H. *Time of sexual reproduction in wheat as influenced by temperature and light. 148.
MEINZER, OSCAR EDWARD. The history and development of ground-water hydrology. 6.
MILTON, CHARLES. *Stratigraphic correlation of heavy minerals in Paleozoic beds in Idaho. 189.
MISER, H. D. *The carboniferous rocks of the Ouachita Mountains. 494.
NELSON, E. W. A new pocket mouse from Sonora. 267.
PEREIR, CLEMENTE. Two new parasitic worms of *Didelphys aurita: Skrjabinofilaria pricei* n. sp. and *Gongylonema marsupialis* n. sp. 54.
PHILLIPS, MAX. The ammoniation of waste sulfite liquor and its possible utilization as a fertilizer material. 1.

PIERCE, W. G. *Fossil sink-holes in Cretaceous beds of Prowers County, Colorado. 194.

PRICE, EMMETT W. New genera and species of blood flukes from a marine turtle, with a key to the genera of the family Spirorchidae. 132.

RAWDON, H. S. *The preparation of metal single crystals and their utilization in metallurgical studies. 104.

READ, CHARLES B. *Genus *Tempskya* in western North America. 191.

REED, J. C. *Gravel-filled basins in the Nez Perce National Forest, Idaho. 191.

REID, F. R. The ammoniation of waste sulfite liquor and its possible utilization as a fertilizer material. 1.

ROBERTS, RAY C. Saline peat profiles of Puerto Rico. 175.

ROSS, C. P. *Stratigraphic correlation by heavy minerals in Paleozoic beds in Idaho. 189.

RUSSELL, LORIS S. New fossil freshwater Mollusca from the Cretaceous and Paleocene of Montana. 128.

SCHMITT, WALDO L. Notes on certain pycnogonids including descriptions of two new species of *Pycnogonum*. 61.

SCHONLAND, B. F. J. *The thunderstorm and its electrical effects. 366.

SCHWARTZ, BENJAMIN. The development of the Trichostrongyle, *Nippostrongylus muris*, in rats following ingestion of larvae. 334.

SEEGER, RAYMOND J. The beginnings of physics I.—The quest for general principles. 501.

—— *The magnetic moment of the proton. 106.

—— *The physical nature of the chemical bond. 363.

—— The virial theorem for nonholonomic systems. 461.

SHOEMAKER, CLARENCE R. Two new species of *Corophium* from the west cast of America. 356.

SMITH, Mrs. MAURICE G. A Negro peyote cult. 448.

STEINER, G. An annotation on the nematode genus *Pontonema*. 56.

—— A new species of the genus *Aphelenchoides* living in sugar cane. 141.

SWANTON, JOHN R. Newly discovered Powhatan bird names. 96.

TAYLOR, J. H. *The process of generalisation in mathematics as exhibited in the development of the Frenet formulae. 364.

THOM, CHARLES. *The arsenic fungi. 146.

THOMPSON, J. G. *The use of physical methods for testing purity of metals. 104.

TRASK, P. D. *Preliminary study of source beds in the Mesozoic rocks on the west side of the Sacramento Valley. 491.

TREADWELL, AARON L. *Sphaeropomatus miamiensis*, a new genus and species of Serpulid polychaete. 338.

VAZ, ZEFERINO. Two new parasitic worms of *Didelphys aurita: Skrjabinofilaria pricei* n. sp. and *Gongylonema marsupialis* n. sp. 54.

VEBLEN, OSWALD. Spinors. 281.

WALKER, W. M. A variety of Caddo pottery from Louisiana. 99.

WETHERILL, J. P. p-Fluorophenacyl alcohol and some of its esters. 526.

WEHR, EVERETT E. Descriptions of three bird nematodes, including a new genus and a new species. 341.

WELLS, W. F. Viability of bacteria in air. 276.

WENZEL, L. K. *Thiem's method of determining permeability and pumping-test method of determining specific yield of water-bearing materials. 488.

WILLIAMS, J. S. *Correlation of the Louisiana limestone with beds at Kinderhook, Illinois and Burlington, Iowa. 490.

SUBJECT INDEX

Agronomy. *Grohoma and other fake grains: their origin and exploitation. J. H. MARTIN. 147.

Archeology. A variety of Caddo pottery from Louisiana. W. M. WALKER. 99.

Biology. Viability of bacteria in air. W. F. Wells. 276.

Botany. Additional Costa Rican mosses, III. EDWIN B. BARTRAM. 467.

*A résumé of potato investigations in Mexico and South America. C. O. ERLANSON. 147.

*Botanical explorations in Choco Province, Colombia. W. A. ARCHER. 145.

Hawaiian algae collected by Dr. Paul C. Galtsoff. MARSHALL A. HOWE. 32.

Microsporum of cats causing ringworm in man. VERA K. CHARLES and ALINE F. KEMPTON. 222.

New Asteraceae from Guatemala collected by A. F. Skutch. S. F. BLAKE. 432.

New plants mainly from western South American—IV. ELLSWORTH P. KILLIP. 42.

New species of *Aulacolepis* and other grasses. A. S. HITCHCOCK. 290.

Pedilospora dactylopaga, n. sp., a fungus capturing and consuming testaceous rhizopods. CHARLES DREHSLER. 395.

Pleuroderris, a new genus of Middle American ferns. WILLIAM R. MAXON. 549.

*Short daily light periods the cause of the rest period and regional adaptation in strawberries. G. M. DARROW. 146.

The American species of *Elytraria*. E. C. LEONARD. 443.

*The arsenic fungi. CHARLES THOM. 146.

The dental plant of the Citará Indians in Colombia. W. ANDREW ARCHER. 402.

The inflorescence in *Schizostachyum* Nees. F. A. MCCLURE. 541.

The lack of chlorosis in some sterility diseases of grasses. W. W. DIEHL. 148.

The problem of arctic vegetation. ROBERT F. GRIGGS. 153.

*Time of sexual reproduction in wheat as influenced by temperature and light. H. H. MCKINNEY. 148.

Two new grasses, one from Tennessee, one from Argentina. A. S. HITCHCOCK. 480.

Two new varieties of *Salix scouleriana* Barratt. CARLETON R. BALL. 73.

Chemistry. 5-chloro-veratralhippuric acid and some of its derivatives. RAYMOND M. HANN. 464.

3, 4-dimethoxy — 5-chloro-benzylidene di-amides. RAYMOND M. HANN. 124.

p-Fluorophenacyl alcohol and some of its esters. RAYMOND M. HANN and J. P. WETHERILL. 526.

The ammoniation of waste sulfite liquor and its possible utilization as a fertilizer material. MAX PHILLIPS, M. J. GOSS, B. E. BROWN, and F. R. REID. 1.

The isomeric oximes of ethyl vanillin. RAYMOND M. HANN. 126.

The pigment of the India red pummelo (*Citrus grandis* Osbeck). M. B. MATLACK. 385.

The synthesis of 3, 4 dimethoxy—5-chloro benzoic acid. RAYMOND M. HANN. 329.

Crystallography. *The preparation of metal single crystals and their utilization in metallurgical studies. LOUIS JORDAN and H. S. RAWDON. 104.

Economics. *The mechanism of material prosperity. H. C. DICKINSON. 360.

Entomology. The genus *Oliarus* and its allies in North America (Homoptera fulgoridae). E. D. BALL. 268.

Ethnology. A negro peyote cult. Mrs. Maurice G. SMITH. 448.

Newly discovered Powhatan bird names. JOHN R. SWANTON. 96.

Forestry. *Forests and stream flow. W. G. HOYT. 486.

Geology. *An accidental large scale model of diastrophic action. H. M. EAKIN. 192.

*Correlation of the Louisiana limestone with beds at Kinderhook, Illinois and Burlington, Iowa. J. S. WILLIAMS. 490.

*Fossil sink-holes in Cretaceous beds of Prowers County, Colorado. C. H. DANE and W. C. PIERCE. 194.

*Gravel-filled basins in the Nez Perce National Forest, Idaho. J. C. REED. 191.

*Hyperstene granodiorite in Virginia; its change to unakite and its age. A. I. JONAS. 489.

*Preliminary study of source beds in the Mesozoic rocks on the west side of the Sacramento Valley. P. D. TRASK and H. F. HAMMAR. 491.

*Some aspects of the geology of the Cascade Range in Oregon. EUGENE CALLAGHAN. 190.

*Stratigraphic correlation by heavy minerals in Paleozoic beds in Idaho. C. P. ROSS and CHARLES MILTON. 189.

Supplementary notes on Pleistocene glaciation in the Great Basin. ELIOT BLACKWELDER. 217.

*Tertiary structural history of parts of northwestern New Mexico. CHAS. B. HUNT. 188.

*The carboniferous rocks of the Ouachita Mountains. H. D. MISER. 494.

*The Cretaceous of West Texas. PHILIP B. KING. 195.

*The pronunciation of geologic terms. R. W. BROWN. 493.

*The relation of Tertiary intrusives to ore deposits of Jamestown, Colorado. E. N. GODDARD. 488.

*Thiem's method of determining permeability and pumping-test method of determining specific yield of water-bearing materials. L. K. WENZEL. 488.

*Varved clay in Ogden Valley, Utah. R. M. LEGGETTE. 493.

*Wind-faceted pebbles from the glacial drift of Nantucket. F. E. MATHES. 195.

Geophysics. A note on the elastic properties of rocks. ROY W. GORANSON. 419.

Earthquakes associated with the 1933 eruption of Mauna Loa, Hawaii. AUSTIN E. JONES. 413.

Horticulture. *The functioning of fruit trees as influenced by moisture supply. J. R. MAGNESS. 148.

Hydrology. The history and development of ground-water hydrology. OSCAR EDWARD MEINZER. 6.

Malacology. New Philippine land shells of the genus *Obba*. PAUL BARTSCH. 318.

Mathematics. *Curve fitting and tests for empirical formulas. W. C. DEMING. 564.

Flatland: Not a romance but a necessary expedient. OSCAR S. ADAMS. 201.

Spinors. OSWALD VEBLEN. 281.

*The process of generalization in mathematics as exhibited in the development of the Frenet formulae. J. H. TAYLOR. 364.

Meteorology. *Long-time temperature trends: Are the old fashioned winters gone? J. B. KINCER. 148.

*The thunderstorm and its electrical effects. B. F. J. SCHONLAND. 366.

Necrology. ALDRICH, JOHN MERTON. 327.

KELLERMAN, KARL FREDERIC. 460.

NELSON, EDWARD WILLIAM. 327.

SKEELS, HOMER COLLAR. 112.

Oceanography. *Tides that follow the sun. H. A. MARMER. 362.

Ornithology. Bird bones from Eskimo ruins on St. Lawrence Island, Bering Sea. HERBERT FRIEDMAN. 83.

Bird bones from old Eskimo ruins in Alaska. HERBERT FRIEDMAN. 230.

The hawks of the genus *Chondrohierax*. HERBERT FRIEDMAN. 310.

Paleobotany. A pine from the Potomac Eocene. EDWARD W. BERRY. 182.

A walnut from the Chesapeake Miocene. EDWARD W. BERRY. 227.

Extension of range of *Attalea olssoni*. EDWARD W. BERRY. 447.

*Genus *Tempskya* in western North America. CHARLES B. READ and ROLAND W. BROWN. 191.

Pliocene in the Cuenca Basin of Ecuador. EDWARD W. BERRY. 184.

The supposed fossil ear of maize from Cuzco, Peru. ROLAND W. BROWN. 293.

Three additions to the Pleistocene flora of Tennessee. EDWARD W. BERRY. 482.

*A marsupial from the Florissant beds of Colorado. C. LEWIS GOZIN. 487.

A new species of *Pecten* from the Oligocene near Duncan Church, Washington County, Florida. WENDELL C. MANSFIELD. 331.

Paleontology. *Celliforma spirifer*, the fossil larval chambers of mining bees. ROLAND W. BROWN. 532.

Early Tertiary species of gastropods from the Isthmus of Tehuantepec. JULIA GARDNER and EDGAR BOWLES. 241.

Land shells from the Upper Eocene Sespe deposits, California. G. DALLAS HANNA. 539.

New carboniferous invertebrates—IV. GEORGE H. GIRTY. 249.

New fossil fresh-water Mollusca from the Cretaceous and Paleocene of Montana. LORIS S. RUSSELL. 128.

Pleistocene remains found near Lake Tacarigua, Venezuela. CHARLES T. BERRY. 387.

Pleurotomaria pseudostrigillata nom. nov. and *Chonetes acanthophorus* nom. nov. GEORGE H. GIRTY. 541.

The pelecypod genus *Vulsella* in the Ocala limestone of Florida and its bearing on correlation. F. STEARNS MACNEIL. 428.

Petrology. Some magmatic problems. CLARENCE N. FENNER. 113.

Pharmacology. Remedies for cyanide poisoning in sheep and cattle. A. B. CLAWSON, H. BUNYEA, JAMES F. COUCH. 369.

The nitrite-thiosulphate combination as a remedy for cyanide poisoning in sheep. H. BUNYEA, J. F. COUCH, and A. B. CLAWSON. 528.

Physical geography. Saline peat profiles of Puerto Rico. A. P. DACHNOWSKI STOKES and RAY C. ROBERTS. 175.

Physics. *Altitude in airplane and balloon flight. W. G. BROMBACHER. 364.

*Application of radio direction finding. W. B. BURGESS. 106.

*Atomic disintegration by high energy particles. L. R. HAFSTAD. 563.

*Dependence of sound absorption upon the area and distribution of the absorbent material. V. L. CHRISLER. 323.

*Present theories of photographic sensitivity. H. B. CARROLL. 107.

Pressure—volume-temperature relations for six oils. RICHARD B. DOW. 516.

*Recent developments in radio aids to air navigation. HARRY DIAMOND. 105.

*Remarks on catalysis. JAMES FRANCK. 453.

*Sound ranging as applied to hydrographic survey. R. R. LUKENS. 324.

The beginnings of physics I.—The quest for general principles. RAYMOND J. SEEGER. 501.

*The composition of harmonic motions. P. R. HEYL. 362.

*The indentation of asphalt tile. J. W. MCBURNEY. 364.

*The magnetic moment of the proton. R. J. SEEGER. 106.

*The physical nature of the chemical bond. R. J. SEEGER. 363.

*The polarization of light at sea. E. O. HULBURT. 325.

*The use of physical methods for testing purity of metals. J. G. THOMPSON. 104.

The virial theorem for nonholonomic systems. R. J. SEEGER. 461.

Scientific Notes and News. 70, 107, 149, 197, 238, 277, 327, 367, 409, 456, 495, 565.

Zoology. Affinities of the Brachyuran fauna of the Gulf of California. STEVE A. GLASSELL. 296.

An annotation on the nematode genus *Pontonema*. N. A. COBB and G. STEINER. 56.

A new genus of Trematodes belonging to the sub-family Allocreadiinae. EDWIN LINTON. 81.

A new pocket mouse from Sonora. E. W. NELSON and E. A. GOLDMAN. 267.

A new sea-urchin from Florida. AUSTIN H. CLARK. 52.

A new species of the nematode genus *Aphelenchoides* living in sugar cane. G. STEINER. 141.

Descriptions of three bird nematodes, including a new genus and a new species. EVERETT E. WEHR. 341.

Neodiplostomum pricei n. sp., a new Trematode from a gull, *Larus novaehollandiae*. WENDELL H. KRULL. 353.

New experimental hosts for *Brachylaemus virginiana* (Dickerson) Krull. WENDELL H. KRULL. 483.

New genera and species of blood flukes from a marine turtle, with a key to the genera of the family Spirorchidae. EMMETT W. PRICE. 132.

Notes on certain pycnogonids including descriptions of two new species of *Pycnogonum*. WALDO L. SCHMITT. 61.

Notes on fossil and recent Bryozoa. R. S. BASSLER. 404.

Some *Actinaria* from Bering Sea and arctic waters. OSKAR CARLGREN. 348.

Sphaeropomatus miamiensis, a new genus and species of Serpulid polychaete. AARON L. TREADWELL. 338.

The development of the Trichostrongyle, *Nippostrongylus muris*, in rats following ingestion of larvae. BENJAMIN SCHWARTZ and JOSEPH E. ALICATA. 334.

The histology of nemic esophagi III. The esophagus of *Oesophagostomum dentatum*. B. G. CHITWOOD. 557.

The morphology and development of the preparasitic larvae of *Poteriostomum ratzii*. JOHN T. LUCKER. 302.

Two new parasitic worms of *Didelphys aurita: Skrjabinofilaria pricei* n. sp. and *Gongylonema marsupialis* n. sp. ZEFERINO VAZ and CLEMENTE PEREIR. 54.

Two new species of *Corophium* from the west coast of America. CLARENCE R. SHOEMAKER. 356.

Two new species of pearly freshwater mussels. WILLIAM B. MARSHALL. 78.
